## Idalia Student Council BBQ Feed & Dessert Auction

on February 3, 2018 @ 6:30 p.m.

@ The Grainery Bar & Grill

The Idalia Student Council is hosting their annual BBQ Feed on February 3, at the Grainery. Meal will include ribs, sausage, chicken, cornbread, and a side of steak fries.

Contact any Idalia STU .CO member to purchase tickets.

\$25 or \$33 for beer band

*(All profits will fund activities of Idalia School students.)*

After Prom is in search of donations of items for crafts. Any amount of these items would be greatly appreciated.

Yarn

Pop Bottle Caps (Metal)

Pop Bottle Tabs

All items can be turned into Kelly Shaffer at the school.

## STORM SPOTTERS' CLASS

Class will be presented by the National Weather Service Goodland, Kansas, Friday, March 9, 2018 a St. John's Church Fellowship Hall located on Hwy. 385 and ½ mile West on Road 7.

9:30—Rolls & Coffee

10:00—12:00 Class

Free-will donation for lunch following class.

Learn basics of thunderstorm development,

Identify potential severe weather features, Information to report and how to report.

**Everyone in Idalia and surrounding area are invited and encourage to attend.**

This program is being sponsored by: Idalia Bicentennial Family and Community Education Club.

## DONATIONS FOR

### MANNA PANTRY OUTREACH—IDALIA!

The Manna Pantry Outreach will help people in the Idalia community with 3 days' worth of meals per month. We hope to begin distributing meals at The Hub beginning in March.

Manna Pantry Outreach in Idalia is currently seeking shelving units for storage, a deep freezer, and a refrigerator. We are also asking for non-perishable food items, meat, and other food essentials. If you wish to donate, please contact Kelli Kite at 970 -396-9441 and/or bring your item to The Hub on Friday, February 9, from 2:30-4:00 p.m.

\*Any donations to the center of \$250 or more will receive receipt for tax deductions.

### Donation Drop-Off:

**DATE:** February 9, 2018

**TIME:** 2:30-4:00 p.m.

**LOCATION:** The Hub on Main Street

**WALK/BIKE TO SCHOOL DAY**

**FEBRUARY 8**

## BRIAN JIMENEZ - WOLF OF THE MONTH

Brian is a 17 year old Junior. Brian is a straight-A student and his favorite teachers are Mrs. Sue Terrell (Business/Publications) and Mrs. Cindy Soehner (Math). Brian states that he loves staying busy, and when he is not at school or doing homework, he really enjoys his job at The Grainery. Brian looks up his parents as his role models, stating, "My parents worked so hard to give me everything I need in life. They have also taught me how to be respectful and have good morals."

An accomplishment that Brian is proud of is "maintaining a 4.0 GPA throughout high school." When asked to discuss a 'Fun-Fact' about himself, I discovered that Brian "really enjoys art, especially drawing." Brian shared that his future aspirations include "continuing my education and possibly studying physiology." Brian offers the following advice to his fellow students, "Don't take school for granted. You are lucky you attend such a great school. Enjoy your time here." *Submitted by Myles Johnson, Principal*

## MOCK INTERVIEW RESULTS

As part of each student's plan in Idalia High School, each student will have the experience of interviewing with a panel before graduating. With more experiences in interviews, the student is better equipped for adult world. On Tuesday, January 16, our junior and senior students were met with such a task. Our interview panel consisted of James DePue, Gerry Ohr, Robbi Kraus, and Mary Pat Weingardt. Without this panel, the day's experience would not have even been possible!

What an experience for our students! With the motivation of a \$100 scholarship, students prepared resumes, dressed in business attire, and were set in front of four interviewers for 15 minutes. With overwhelming impressive remarks from the panel, Idalia High School students were outstanding! With just a few points separating the students, Megan Waitman was reported to receive the scholarship. *Submitted by Kelli Kite, Counselor*

IDALIA FFA

## PLANT SALES

MAY 4-21, 2018

WEEK DAYS- 3:00-5:00 P.M.

SATURDAYS- 10:00 A.M.-3:00 P.M.

GREEN HOUSE

Plant Sales include tomatoes, peppers, cucumbers, squash, cantaloupe, watermelon, begonias, petunias, geraniums, and more.

THANK YOU DANIEL PEREZ  
(IDALIA JUNIOR) FOR RE-  
PAINTING THE PRESCHOOL  
PLAYGROUND LINES.

## Walk/Bike-to-School Future Dates

March 15

April 19

## THOUGHTS FROM THE PRINCIPAL

Second semester is off to a fast and furious start. January's schedule has been filled with basketball, an FFA field trip to the National Western Stock Show, Honor Band, a Y-W Electric guest presenter among other activities and events to keep our students engaged in their educational experience. Our mid-year assessment data is in with largely promising results. Performance and growth measures both landed somewhere between acceptable and ideal. I appreciate the effort our students and staff alike bring to school each and every day.

Growing up on my family's ranch, my dad (who prides himself on efficiency) once told me that one of his few frustrations with the cattle industry was that "10 percent of the animals consume 90 percent of our time." It may take only an hour to check the water and health of a herd of 300, but then five additional hours dealing with the two head that got out into the neighbors pasture or need to be doctored. With spring calving just around the corner, there are many local ranchers who are all too familiar with the necessity of around the clock checks, all to ensure the five percent that need assistance receive it. It became obvious to me very early on during my time here that the average Idalia 3rd grader knows twice as much about farming than I do. With that being said, I am sure local farmers become frustrated with similar time inefficiencies when machines do not work as well as anticipated, in which entire afternoons or even days can be spent getting machinery up and running correctly rather than perform the jobs they were designed to do.

Although agriculture and education are vastly different professions, individuals in both careers must attempt to be efficient with our most prized resource, time. Being an effective teacher is difficult. The challenges teachers face daily are as complex as they are unpredictable. From my personal experience in the classroom, the thing that I struggled with most as a teacher was how to best teach each and every student in my class. Of Idalia's current 223 students, one clearly notices the diversity of our student body. Each of our students' personalities is as unique as their aptitudes and abilities.

If a typical classroom of 20 students can be represented by a standard bell curve, there are 16 (80%) students in the middle who will show typical growth and success from a teacher's general instruction and regular classroom activities. There are two students (10%) who, for a variety of reasons, struggle to keep up with their peers and require additional support and resources in order to be successful. And then there are two students (10%) that are advanced and significantly ahead of the rest of their classmates. This is the group of students most commonly underserved. After all, these students are rarely behavioral concerns and, rest assured, you can rely on them to score impressively on both local and state assessments, boosting your class' averages. Any logical teacher, with time efficiency in mind, would not be willing to sacrifice the quality of education for 80% of their students for the benefit of the 10% that already seem to know it all.

With that being said, every student should be afforded the opportunity for a quality education, one that challenges and pushes them to greater heights. During January's Professional Development Day, we had an outside specialist give a presentation to our staff over how to better serve "Gifted and Talented" students, without sacrificing or deterring from the education of the remainder of the students. I hope the staff found the presentation as beneficial as I did. The presenter said a common mistake for teachers to make is to find their advanced kids flying through an assignment or worksheet, while also getting everything right, as it was never challenging, in fact, it was downright boring for them in the first place. With the rest of the class still not yet halfway done, the teacher desperately searches for something to keep the advanced student occupied. In scramble mode, they give the student an almost identical worksheet, if for nothing else, to kill time. Now, the advanced students is not only bored, but also confused and wondering if they are in trouble while being assigned twice as much work than their classmates.

Instead of increasing the quantity, teachers should instead challenge advanced students to increase the quality of their work. Using Bloom's Taxonomy as a guide, teacher should aim to challenge advanced students with depth of questioning. While the rest of the class may have a test question asking them to recall the date Pearl Harbor occurred, an advanced student may instead be asked to analyze the impact Pearl Harbor had on American foreign policy. The teacher, without creating a lot of extra work or grading for themselves, did not assign twice as much work to the advanced student, but instead challenged that advanced student, while providing an opportunity for them to prove their impressive mastery of the content. No matter ability or intelligence level, every student at Idalia deserves the opportunity for a quality education. *Submitted by Myles Johnson, Idalia Principal*

## TRI-STATE ELECTRIC SPEAKER VISITS IDALIA

Michelle Pastor, from Tri-State Electric, came to teach Idalia students from grades K-12 about electricity. Michelle brought in three different types of bulbs and talked about the efficiency of bulbs while explaining how many volts each had. She also brought in power lines and demonstrated how a circuit works.

Ms. Pastor taught the students why you shouldn't touch a power line because it's not safe. She showed how energy was transferred by having a student touch a Van de Graff generator. The student's hair was static in seconds!

For her safety presentation, Ms. Pastor gave the students a scenario and advice on what they should do in the scenario. This presentation was sponsored by YW Electric. *Submitted by Crystal Cordova, Publications Student*

## YOUTH BASKETBALL

On Saturday January 20, Idalia hosted 5th/6th Grade teams from Burlington, St. Francis, and Benkelman for our 1st Annual Youth Basketball Tournament. The tournament went smoothly and both Idalia teams played well. The boys team lost in the Championship while the girls (pictured) went undefeated and came away as Champions! Idalia Youth Basketball would like to thank the following for helping make the tournament a big success: Crystal Richards, Sue Heath, Sheena Terrell, Brad Wingfield, Jeff Hurlburt, Cory Zion, Daniel Glanz, Aubrey Richards, Dax Towns, Garrett Hurlburt, and the Junior Class and sponsors.

Coach Johnson, Kiersten Wingfield, Addyson Juhnke, Kyndal Richards, Priscilla Cruz, Callie Richards, Samantha Heath, Coach Richards, Melani Monarrez, Luisa Xilot Gamboa, Krista Wieser, Jillian Morris, and Catherine Shandy

## HONOR BAND

On January 11 Brandy Henrickson, Dawn Rice, and Allison Rice traveled to Bennett High School with Miss Caron for Honor Band. They were selected via live audition in November and have been practicing their music since December. During the day they rehearsed with guest clinicians in full band rehearsal and also spent time in sectional rehearsals. There were over 80 students in each of the two bands! That evening they put on a concert showing off what they had

Alli Rice, Brandy Henrickson, Dawn Rice and Ms. Caron

been putting together all day long. It was a great experience for all three of our students. They worked hard, made new friends, and played well for their parents, and the rest of the audience, even after a long day of rehearsing. Submitted by Johanna Caron, Idalia Music Teacher

## LEAGUE KNOWLEDGE BOWL

After having to reschedule for snow, the junior high and high school teams headed to Seibert for the YWKC League Knowledge Bowl meet. The high school team had serious competition this year and battled the day out against the defending team from Liberty. They fell short of coming home with iron by one point in the last of the oral rounds. The team consisted of captain, Chelby Dull, Garrett Hurlbert, Hannah Carpenter, Aubrey Richards, and Rex Fell. The junior high had a great day. Most of the team was new to Knowledge Bowl this year but their inexperience did not slow them down. We had been practicing for weeks leading up to the competition and they came in with great confidence. The B team consisting of captain, Kye Towns, Yahir Enriquez, Schuyler Prentice, and Koy Smith all scored in multiple rounds even beating out other A teams. The A team came out a little slow in the written round but battled back and claimed the championship. The team was composed of captain Marek Cody, Dawn Rice, Tyler Hall, and Allie Rice. Submitted by Audrey Sayles, Knowledge Bowl Sponsor

**March Wolfview deadline is Thursday,  
February 22.**

## PHYSICS BRIDGES

Members of the physics class made bridges out of toothpicks or paperclips. The bridges had to be at least 60 cm long and 10 cm wide. Bridges were put in between two desks and then weight was applied. Whichever bridge could take the most weight won. The winner was Maddisen Hoyda. Her bridge was 60 cm long and 10 cm wide. It held 8 kg of weight and never broke. Submitted by Madi Wells, Publications Student

Pictured: Brian Jimenez, Maddisen Hoyda, Payton Jacobs, Daniel Perez, Madison Wells, Erik Estrada, Crystal Cordova, Breann Shaffer, Megan Waitman, Ysabelle Mireles, Chelby Dull and Garrett Hurlburt.

## CU PRESENTATION

Students in grades 4 through 10 took part in a CU Science Discovery Program on Friday, January 5, 2018. The workshop, "Invention Literacy with Makey. Makey and Scratch" used simple interfaces (Makey-Makey) and computer programming software (Scratch) as platforms for exploring opportunities to incorporate innovation, invention and invention literacy in the classroom. In 90 minutes, students created, programmed and presented a variety of projects using these techniques. An interactive Cookie Monster, an MP3 player that offered a variety of "teacher catch-phrases" and a piano made of aluminum foil were just some of the creative projects presented by students at the end of the workshop. The presenter was quite impressed with our school and our students. FYI- the coding program "Scratch" is free and can be downloaded if your student should want to pursue this new skill at home! Submitted by Cindy Soehner, Physics Instructor

*Pictured: Reese Weatherly, Tate Towns, Krista Wieser, Addyson Juhnke, and Luisa Xilot-Gamboa*

## FFA ATTENDS NATIONAL WESTERN STOCK SHOW

The Idalia FFA Chapter travelled to the National Western Stock Show and Rodeo on January 17. Twenty-eight members attended. At the rodeo, members got to see everything from bull riding to mutt and busting'. It was a fun experience for everyone! Submitted by Breann Shaffer

## EDUCATION ENRICHMENT GRANT

Faculty recipients of the Idalia Vision Foundation Education Enrichment grants are: Kelli Kite, Counselor—\$500; Johanna Caron, Music Department—\$300; and Audrey Sayles, Social Studies—\$200.

Recently established, the Educators' Grant Program is designed to recognize innovative teaching skills and enhance opportunities for teachers and students in a rural school district with limited financial resources. It becomes another opportunity in the Visions Foundation's support of continuing education and is funded by a gift from Delmar and Roberta Moellenberg and family. Thank you.

*Mrs. Kite, Ms. Sayles, and Ms. Caron*

## ATTENTION

For the Spring Concert, Miss Caron would like to invite anyone who plays an instrument to consider joining us and playing with the band. So dust off your old instruments, brush up on your fingerings, and contact Miss Caron by email at [caronj@idaliaco.us](mailto:caronj@idaliaco.us), or by phone at (970) 354-7298 ext. 221 for more information!

## NEW SAFEWAY CARDS ARE AVAILABLE

We are happy to announce that we now have new Safeway gift cards that can't be 'hacked'. These new gift cards are used just like the old ones were – purchase a gift card from Continuing Ed for \$10, add money to your gift card prior to checking out and your gift card is ready to use. Safeway gift cards and King Soopers gift cards are available to purchase at the school office.

As in the past, Safeway and King Soopers continue to donate 5% of all money that is applied to these gift cards to the Continuing Education program. All profits from the use of Safeway and King Soopers gift cards and the drink and snack machines are used to fund scholarships for students who apply for them. Thanks to Carpenter's Mini Mall for donating to the scholarship fund this past year. Members of the Continuing Education Scholarship committee are Linda Evans, Kathy Wiley, Ken Brenner, Brett Parker and Deb Crites. Anyone having questions should contact a committee member. Anyone having questions should contact a committee member.

## SCREENAGERS

On January 28, Idalia Health & Wellness sponsored the film Screenagers to parents, guardians, and community members of Idalia as part of the contract in showing the film to the students in 6<sup>th</sup>-12<sup>th</sup> grades. The information obtained from the film was interesting and a bit overwhelming. One major suggestion from the filmmaker, Delaney Ruston, was developing a "Screen Time Contract" with your child.

### 1. Defining Your Family's General Principles

Start with a question such as—what are the main reasons we want to have balance in our lives regarding screen time and other activities? **Other topic ideas:** Internet safety, privacy, time management, plagiarism, appropriate posts, online bullying and kindness.

### 2. Defining Family Rules

This is where you translate your principles into your "tech limits," "agreements," "rules," however you want to label them. The main focus is determining times when screens should be put away.

Some examples include:

- Meal times — Are devices allowed at the table? Breakfast? Dinner?
- Night power-down — When to turn off screens/phones before bedtime
- Bedroom — Screens in the bedroom? If so, all the time? Are phones allowed in the bedroom?
- Cars — May non-drivers be on their phones?

### 3. Establishing Incentives and Consequences

One of the hardest things about parenting is enforcing guidelines/rules. The two main goals are to have a limited number of rules and to have the kids help create them inline with their maturity level. For rules to be effective, there needs to be incentives and consequences in place. Research tells us that our behaviors are more likely to be changed through positive incentives than deterrents. This is especially true for kids.

### 4. Allow Wiggle Room

We all know that real life requires wiggle room. Thinking about the times that may come up when someone needs to go on a screen despite the rule and how these situations should be handled is also important. This is a part of tech etiquette.

For more great information and resources, go to [www.screenagersmovie.com](http://www.screenagersmovie.com)

## 1<sup>st</sup> GRADE NEWS

Starting the second semester, the 1<sup>st</sup> graders have been learning from many different science experiments. They've made baking soda snowmen and melted them with vinegar. They are also making a STEM project. For this project, the students were asked to create a structure from marshmallows and toothpicks.

## KINDERGARTEN NEWS

Mrs. Lengel and her 11 wonderful kindergartners are creeping up on the 100<sup>th</sup> day of school. On this day, they will participate in a 100<sup>th</sup> Day of School Celebration. This semester the students are also learning to read. They have started on their ball words and will hopefully be off and reading here shortly.

## IDALIA FIRST SEMESTER HONOR ROLL

*Back Row:* Coy Fell, Daniel Perez, Gillian Fell, Rex Fell, Erik Estrada, Martin Veleta, Logan Prather, Jake Garton, Cade Richards, Veronica Cody, Brandon Kock, Cloey Jones, Hannah Carpenter, Dax Towns, Brisa Perez, Emmett Bator, Brendon Weatherly, Kehlzie Juhnke, Sam McGinnis, Jacey Jones, Garrett Hurlburt, Megan Waitman, Toby Prather, Aubrey Richards,

*Ysabelle Mireles, Madison Wells, Brian Jimenez-Fraile, Maddisen Hoyda,*

*Tyson Richards, Payton Jacobs, Crystal Cordova, Breann Shaffer, Chelby Dull, Brandy Henrickson, and Nallely Olivas. Front Row:* Dustin McGinnis, Camren Morris, Raquel Lieurance, Dawn Rice, Tyler Hall, Kylie Wingfield, Colin Hardwick, Itzel Perez, Tara Hubbard, Eduardo Estrada-Vasquez, Jenna Wieser, Adriana Herrera, Naidelin Estrada, Melani Monarrez-Estrada, Porscha Jacobs, Kiersten Wingfield, Julian Perez, Rylann Brigham, Samantha Heath, Lizeth Olivas, Callie Richards, Catherine Shandy, Kale Morris, Catherine, Alma Cordova, Benjamin Foreman, Anna Garton, Dakota Weatherly, Priscilla Cruz, Kyndal Richards, Cade Henry, Bradley Dickenson, Jakelynn Minor, and Oscar Ornelas.

### PROJECT ARRIVE ALIVE

This year, the Idalia FBLA Chapter is implementing a Partnership with Business Project called *Project Arrive Alive*. FBLA is partnering with our local emergency services—Yuma County Sheriff's Office, State Patrol, local EMT's (nurses as well), and the Idalia Fire Department. With the help of all these departments, the Idalia FBLA Chapter is setting up an Emergency Services Career Fair on February 5. The career fair is going to be for 7th through 12th grades and is going to feature approximately 11 emergency service booths, a Sidney Car and a simulator outside, as well as a keynote speaker towards the end of the morning. The keynote will only be for the high school students.

Prior to the career fair, January 30 and January 31, FBLA presented road safety presentations to the elementary. EMT's are also going to be helping out by teaching kids how to do simple wound care. On Monday, February 26, there will be a mock car crash. This will only involve high school students. Distracted (texting) driving is going to be the cause of the crash. After the mock crash, students will be shuttled on a bus to Wray for the trial of the case in the courthouse. A random selection of students will be chosen to be a part of the jury. Partnership with Business is a huge project and cannot be executed without the help of our local emergency services. The Idalia School and FBLA Chapter greatly appreciate their help and hope that this could be a great educative learning experience for students. *Submitted by Brian Jimenez, FBLA Secretary/Reporter*

**THANK YOU IDALIA COMMUNITY FOR SUPPORTING THE FBLA FIRST AID KIT SALES. OVER 150 FIRST AID KITS WERE SOLD.**

### GIRL SCOUT COOKIES

Cookie Time!

Idalia Girl Scout Cookie Sale begins February 4 and runs through March 11. We have 11 girls selling this year. Several of the girls have large goals so that they can attend Girl Scout camp this summer.

This sale the girls have chosen Hurricane Victims as our Hometown Heroes.

Come visit us at our Cookie Booths at the Idalia Basketball Home Games:

February 9, February 10, February 13, and at the Liberty School Basketball Game February 15

For more information contact Terry Henrickson, Troop Cookie Manager or Amber Soehner, Assistant Cookie Manager.

**Girl Scouts®**

## CONGRATULATIONS to the JUNIOR HIGH GIRLS FOR PLACING 2ND in the YW-KC BASKETBALL TOURNAMENT.

## 2<sup>nd</sup> GRADE

The 2<sup>nd</sup> Graders are also gearing to participate in the 100<sup>th</sup> Day of School Celebration. The students are also participating in a research project.

## PRESCHOOL NEWS

Dads and Donuts for the preschoolers will be held on February 26 and 27. We hope to see all the dads and their kiddos for donuts!

## COLORADO STATE TESTING 2018 & OPT OUTS

Beginning in April, students in 3<sup>rd</sup>-11<sup>th</sup> grades will be a part of state testing in some fashion. All testing allows our district to gauge our students' and school's abilities and progress. We also consider these assessments to be only one piece of the puzzle in their academic representation.

Students in 3<sup>rd</sup>-8<sup>th</sup> and 11<sup>th</sup> (Science Only) and will be involved in the CMAS, which involves Language Arts, Math, Science, and Social Studies. Students in 9<sup>th</sup>-11<sup>th</sup> are now in the College Board suite of assessments in PSAT or SAT.

Below, you will see the schedule for testing. Please be aware of these days and times when planning any appointments as testing makeup times are difficult. *In addition, if you wish to opt your child from testing, we ask that you do this prior to March 1<sup>st</sup> to allow sufficient planning time. Opt-out forms can be found on the school website, [www.idaliaco.us](http://www.idaliaco.us), under "School Forms."*

| GRADE LEVEL                        | NAME OF TEST        | # of Tests | DATE OF TEST   |
