NOTICE TO STUDENTS AND PARENTS

SERIOUS, CATASTROPHIC AND PERHAPS FATAL INJURY MAY RESULT FROM ATHLETIC PARTICIPATION.

By its very nature, competitive athletics may put students in situations in which serious, catastrophic, and perhaps fatal accidents may occur.

Many forms of athletic competitive athletics result in violent physical contact among players, the use of equipment which may result in accidents, strenuous physical exertion, and numerous other exposures to risk of injury.

Students and parents must assess the risks involved in such participation and make their choice to participate in spite of those risks. No amount of instruction, precaution, or supervision will totally eliminate all risks of injury. Just as driving an automobile involves choice or risk, athletic participation by high school students also may be inherently dangerous. The obligation of parents and students in making this choice to participate cannot be over-stated. There have been accidents resulting in death, paraplegia, quadriplegia, and other very serious permanent physical impairment as a result of athletic competition.

By granting permission for your student to participate in athletic competition, you, the parent or guardian, acknowledge that such risks exist. By choosing to participate, you, the student, acknowledge that such risks exist.

Students will be instructed in proper technique to be used in athletic competition and in the proper utilization of all equipment worn or to be used in practice and competition. Students **must** adhere to that instruction and utilization and **must** refrain from improper uses and techniques.

As previously stated, no amount of instruction, precaution, and supervision will totally eliminate all risk of serious, catastrophic, or even fatal injury.

If any of the foregoing is not completely understood, please contact your school Athletic Director or Principal for further information.
